

GORAŽDE 2011

Veličanstvena moć VODE
Magnificent power of WATER

Umjetnička kolonija/Art colony

15 – 25 June 2011

Sabiha Hadzimuratovic,
Organizator i Direktor Sarajevske Tribine

Medjunarodna likovna kolonija u Mravinjcu kod Gorazda, prva je ogledna kolonija , koja je pocetak dugo planiranog projekta promocije ljepota ovog kraja a narocito rijeke Drine, te pocetak jednog eko projekta, ETNO SELO Mravinjac.

Ova umjetnicka kolonija je jedan mali doprinos priblizavanja umjetnosti manjim lokalnim zajednicama, kako bi stanovnici i manjih sela osjetili cari umjetnosti i poceli da zive u skladu sa ljepotom koju je priroda podarila i koju ljudi nadogradjuju.

Ovi vrsni i poznati umjetnici iz sest zemalja radili su kao tim i kao porodica.Ucili su jedni od drugih i nadogradjivali svoja djela. Svi su bili veoma aktivni i produktivni, te se ljepota ovog kraja odrazila i na njihova djela , koja su obradovala publiku na izlozbama u galeriji Preporod u Sarajevu , te Muzej galeriji u Pocitelju, u Hercegovini.

Ova divna grupa umjetnika, bice i ujedno jezgro buducih kolonija koje ce se ovdje odrzavati svake godine, u mjesecima juni, juli, avgust i septembar, kao dio Etno sela, i buduca otvorena skola slikara za mlade iz svih krajeva BiH i inostranstva.

International Art Colony, Gorazde 2011, was the first Art Colony designed to promote the cultural and environmental riches of the Gorazde County, especially River Drina, along with a proposed Eco Project- Ethno Village, Mravinjac.

The Art Colony is relatively small in size, but is nevertheless considered a very important contribution in terms of fostering and promoting the arts to these small rural communities.

Artists who were participating in the Art Colony were acting as a team and as one family, creating art pieces, as individuals and as groups, learning from each other and enjoying the nature which inspired them.

All of the participants were very active and productive, translating the beauty of the region on their canvases. All of the art pieces that were created in this Colony, were presented at the "Preporod" Gallery Exhibition in Sarajevo, and at the Municipal Museum in Pocitelj, Herzegovina.

This wonderful group of artists will be the driving force of future Art Colonies.

We are planning to host Art Colonies every year in June, July, August and September as part of cultural activities of the EthnoVillage, Mravinjac.

During its operation, we are proposing to institute a seasonal Art School Student Campus for young people from BiH and abroad, which will also contribute to the development of arts in the region.

Our artists, along with select art world professionals, and Sarajevo Tribune management will propose next generation artists-in-residence for future colonies, and perspective artists will be able to apply via our website. We are hoping to develop long-lasting relationships with the art world and to host numerous work-shops as well as establish the first Art School in the region, as part of *EthnoVillage, Mravinjac*.

Fatmir Carkanji
